Intuitive Investments Group plc

Proposed Investment in Microsaic Systems plc

Intuitive Investments Group plc (AIM: IIG) (“IIG”), a closed-end investment company focussed on the life sciences sector, announces an investment of £250,000 to acquire 250 million ordinary shares of Microsaic Systems plc (AIM: MSYS) (“Microsaic”) at a price of 0.1 pence per share (the “Investment”). The Investment is part of Microsaic’s fundraising as announced by Microsaic on 19 January 2021 (the “Fundraising”). The Investment is conditional upon, amongst other things, each of the resolutions being passed at Microsaic’s forthcoming general meeting on 4 February 2021.

Microsaic is a high technology company which develops point-of-need mass spectrometers, designed to improve the efficiency of chemical and biological workflows.

David Evans has personally invested £75,000 as part of the Fundraising. Accordingly, David Evans did not vote as a member of the Board of IIG approving the Investment.

The Investment in Microsaic is the Company’s third investment following its successful IPO in mid-December 2020.
